Who we are?

India Cubicle Solutions commenced in November 2015 in India Washrooms and Change rooms manufacturing and installations. ICS offers wide range of cubicles from standard designs to customized, to suit a range of applications. Partitions are created to fit contemporary architectural design and modern design requirements. We work with you to determine the best option to cater to your specification, timeline and budget. With our extensive knowledge and experience, we bring the best to you.

Our Products

1. Nylon Model

NYLON MODEL is our most popular and versatile system for washroom cubicles and is suitable for any commercial application particularly in areas where high traffic is expected, offering strength and durability to suit tough environments with value for money.

The NYLON MODEL can be configured to suit any installation without compromising on style or appearance. The NYLON MODEL system is, floor mounted on Nylon Legs and is overhead-braced providing extra strength.

Sizes and configurations

Typical standard toilet cubicle size is 900mm wide x 1500mm deep overall. For showers, this depth can be extended to 1800mm overall with the inclusion of a wing wall and shower seat. The NYLON SEREIS can also be manufactured to suit non-standard sizes in accordance with design and building requirements. Please refer TYPICAL SHOP DRAWING of this series.

NYLON MODEL Cubicle shall be equipped with the following accessories

- Heat & Bacteria resistant Polyamide privacy thumb turn
- Extruded Anodized Aluminum U-Channel
- Heat & bacteria resistant Polyamide door knob

5. Urinal Partitions

The Structure

- Each divider panel is equipped with SS L-clamp that attaches the divider to the wall.
- SU-304 screws are used for fixing the divider panel to the wall
- The partition panels are manufactured using 12 mm thick compact laminate
- As per international standards the gap of the divider from the ground should be 500-600 mm.

6. Compact Laminate

Compact Grade Laminate is a solid, high pressure and extremely durable decorative building Panel made from layers of quality Kraft papers impregnated with Phenolic resin, incorporating a clear overlay on both decorative faces, and manufactured under high pressure and temperature. The panel is a high performance material and is used extensively in the construction of toilet cubicles, toilet showers, rest rooms, partitions lockers & wall paneling etc. Compact laminates offer high resistance to water, heat and scratch.

Features of Compact Laminates

- Strong resistance to impact
- Long term stability
- Non toxic & totally hygienic
- Resistant to moisture & steam
- Resistant to chemicals
- Resistant to heat & cigarette burns
- Extremely durable.

Multipurpose Compact Laminate has a wide field of applications.

- Toilet and shower partition
- Toilets
- Toilet Partitions
- Rest rooms
- Changing rooms
- Partitions
- Rest room Cubicles
- Cubicles
- Shower Cubicles

7. Cleaning and Maintenance

The India Cubicle Solutions will give years of excellent service provided a few simple rules are followed:

Light dirt or stains can be removed easily with warm water and mild detergent. Stubborn marks should be removed using a non-abrasive cream cleaner or mild domestic bleach. Harsh abrasives or scouring powders should be avoided. Grease marks can be removed with a proprietary paint and graffiti remover. Hair dyes, bleaches, caustic alkalis and strong mineral acids should be wiped off within a short period.
